## ACADEMIC QUALIFICATIONS

### University of Washington Tacoma, WA

09/2015 – 12/2017

Bachelor of Science in Computer Science and System  
GPA: 3.80

### Highline Community College, WA

04/2013 – 06/2015

Associate of Arts in Computer Science  
GPA: 3.87

## RELEVANT COURSES

Data Structure, Design and Analysis of Algorithms, Software Development & Quality Assurance, Mobile App Programming, Database System Design, C for System Programming.

## PROJECTS

### Java Program

**GradTrack** – Connecting Java with MySQL to create a small database to keep track of graduate students' employment information. This project was a collaborated team effort to structure students' career progress.

**ParkingApplication** – This project was also a collaborated team project connecting Java with MySQL to create a small database to keep track of parking lot for an organization.

### Android App

**OutOfGas** - The purpose of this application is to help drivers search on nearby gas stations using Global Positioning System (GPS). This program implements the Google Maps API to create the map view for users; and makes calls to a web service to connect to a database. This project was also a collaborated team effort.

## ACTIVITY

### T – Mobile Big Data Hackathon

This event is hosted by T-Mobile, Amazon and Dev9. Use creativity and innovation to build an app using open resource technologies and Big Data to improve on the Mobile Customer Experience.
